Fighting for people with autism and their families since 2005

TODAY, Sat., 6/13, Albany, NY, No forced covid 19 shots

Watch live on Del Bigtree's Highwire Facebook page beginning at 11:30 am Eastern Time

6/13/20

Forced covid 19 shots are on the agenda of the drug industry and their allies in government and media. You can't run. You can't hide. You can't go to another state because this is everywhere. You can't go to another country because the vaccine industry is global. Your only option is to fight. So join us in Albany on Saturday, June 13, the first anniversary of the repeal of the religious exemption in NY. New York Governor Andrew Cuomo has already volunteered the entire population of New York as guinea pigs for whatever product gets pushed out onto the market. And Cuomo has had dictatorial power since March 3 to do whatever he thinks is needed to deal with covid 19.

Come to Albany today:

Bar Big Pharma

Saturday, June 13, 2020

8:30, meet at 1 Elk Street in Albany, NY, HQ of the New York State Bar Association,

10:30, March to the Governor's Mansion with stop at the Capitol, & Merck's Albany HQ at 150 State St

11:30, Speeches and protest at the Governor's Mansion, 138 Eagle Street, Albany, NY

Bring signs, friends, family, noise makers, comfortable shoes and food and water to share.

Even dictators like to have the law on their side. Hitler made sure that every aspect of the Holocaust was legal according to Nazi law. Cuomo is no exception. On Saturday the New York State Bar Association will be voting to accept a report that argues forced covid 19 shots are legal and constitutional. They want to give ultimate control of your body and your children's bodies to the state and the politicians that run it.
